7.	<p>COUNCIL DECISION (CFSP) 2020/1482 amending Decision (CFSP) 2018/1544 concerning restrictive measures against the proliferation and use of chemical weapons</p>	14 October 2020	<p>‘2. State Scientific Research Institute for Organic Chemistry and Technology (GosNIIOKhT) (Государственный научно-исследовательский институт органической химии и технологии) Address: Shosse Entuziastov 23, 11124 Moscow, Moscow Oblast, Russia; Phone: +7 (495) 673 7530; Fax: +7 (495) 673 2218; Web: http://gosniokht.ru E-mail: dir@gosniokht.ru</p>	<p>The State Scientific Research Institute for Organic Chemistry and Technology (GosNIIOKhT) is a state research institute with the responsibility for the destruction of chemical weapons stocks inherited from the Soviet Union.</p> <p>The institute in its original role before 1994 was involved in the development and production of chemical weapons including the toxic nerve agent now known as “Novichok”. After 1994, the same facility took part in the government’s programme for the destruction of the stocks of chemical weapons inherited from the Soviet Union.</p> <p>On 20 August 2020, Alexei Navalny was taken seriously ill and admitted to a hospital in Omsk, Russian Federation. On 22 August 2020, he was transported to a hospital in Berlin, Germany. A specialised laboratory in Germany subsequently found clear evidence, also corroborated by laboratories in France and Sweden, that Alexei Navalny had been poisoned with a toxic nerve agent of the Novichok group. This toxic agent is accessible only to State authorities in the Russian Federation. The deployment of a toxic nerve agent of the Novichok group would therefore only be possible due to the failure of the Institute to carry out its responsibility to destroy the stockpiles of chemical weapons.</p>	<p>Travel Ban Assets freeze</p>		DCM No. 1128 Dt. 30.12.2020
